

## PARIS REPORTS BIG GAINS IN VOSGES; MEN AND GUNS TAKEN

Failure by Germany to admit liability for the loss of more than 100 American lives is a phase of the situation on which there were to-day few suggestions as to what the United States should do.

Some of the President's advisers have repeatedly counseled that the breach of international law was so flagrant that it remained only for the United States to have no diplomatic intercourse with the German Government unless the intent of the act was denied and reparation was promised.

The negotiations over the conduct of German submarines have overshadowed the Lusitania case itself, but there were indications to-day that the new German note would cause a return to the Lusitania case as a foremost issue.

CORNISH, N. H., July 9.—President Wilson first learned through unofficial dispatches to-day of the delivery to Ambassador Gerard of the German Government's answer.

The President made no comment. It was stated that he probably would leave for Washington to discuss the note with Secretary Lansing and other of his advisers.

**AUSTRIA APOLOGIZES FOR NEWSPAPER ATTACK ON PRESIDENT WILSON.**

VIENNA (via London), July 9.—Formal apology has been made by the Austro-Hungarian Government to the United States: Ambassador Frederic C. Penfield because of an abusive article printed in the Neues Wiener Tagblatt attacking President Wilson and the American people in connection with the second note protesting against German methods of submarine warfare.

As a rigid censorship is exercised over Austrian papers, Ambassador Penfield has informally asked the Foreign Office if the article represented the opinion of the Austrian Government. The result was an apology and a sharp reprimand for the official censor.

**AMERICAN RED CROSS NURSES AND DOCTORS INSULTED IN VIENNA.**

ZURICH, Switzerland, via London, July 9.—Doctors and nurses of the American Red Cross serving in Vienna have been forced to appeal for protection to the Austrian Red Cross authorities. Because they speak English in the street cars and other public places the Americans have been undergoing many painful experiences at the hands of the Vienna public. The Austrian Red Cross authorities have issued a public notice protesting against such treatment of Americans, who they say are not entitled to every protection but also to the gratitude of all Austrians for their great work of charity.

**FRANCE IN NO DANGER OF CHOLERA EPIDEMIC, NOTED DOCTORS REPORT.**

PARIS, July 9.—Fear that decaying human bodies along the battle front would prove the source of a cholera epidemic that would sweep all France was allayed to-day by an official report from the Parliamentary Committee on Hygiene.

Dr. Pettevin, in Chairman of the committee, for several weeks reports have reached Paris that the cholera epidemic in Austria had its origin in slaughter in the Carpathians and that other warring countries were fighting epidemics developed from putrefaction. The committee's report, made public to-day, declared these assertions to be unfounded.

**NORWAY MAKES PROTEST TO BRITAIN FOR ATTACK ON GERMAN STEAMSHIP**

BERLIN, via wireless to Sayville, L. I., July 9.—The Norwegian Government has protested to Great Britain against the act of an English armed steamer, which attacked the German steamer Pallas in Norwegian territorial waters.

The British auxiliary cruiser Victoria aided the trawler in the chase. A Norwegian guardship, according to dispatches received to-day, forced the British ships to free eleven men of the crew of the Pallas and to allow the vessel to proceed.

**WASHINGTON WATCHES DIAZ.**

Mexicans Reported to Be Fitting Out a Fighting Expedition.

WASHINGTON, July 9.—The Department of Justice will investigate reports that Gen. Felix Diaz is fitting out Mexican expeditions in Baltimore and Miami, Fla. The Department cannot interfere with mere shipments of arms, but if any attempt is made to set out from an American port with a military expedition the Government will step in.

**LIPTON PRAISES AMERICANS.**

WASHINGTON, July 9.—Sir Thomas Lipton, writing from his yacht, Erin, which he has converted to a British hospital ship, to Miss Mabel Boardman of the American Red Cross, pays a tribute to the effectiveness of the work of American surgeons and nurses in Serbia, Montenegro and elsewhere.

He described as "miraculous" the work of Dr. Richard B. Strong, the Harvard professor of tropical diseases in charge of the American sanitary commission in Serbia and Montenegro, and his staff.

## ALL ARRAS SET IN FLAMES BY FIRE OF GERMAN CANNON

French War Office Says the City Is Being Systematically Battered.

PARIS REPORTS GAINS.

Advance of 700 Yards in the Vosges—Germans in Desperate Attacks.

PARIS July 9.—Arras is being systematically battered into ruins by German shell-fire. For forty-eight hours the Teutons have been bombarding the city from long range both day and night, with scarcely a moment's cessation.

Several sections of the city are reported in flames. French soldiers have extinguished all fires that threatened military works, but residences and public buildings are being wiped out by fire or falling before the crash of shells.

The official report of the Paris War Office is as follows:

"From the sea to the River Aisne there was reported last night only one artillery engagement in the vicinity of Souchez. This was quite spirited. There was also a slow but continued bombardment of Arras and a violent cannonade between the River Oise and the River Aisne, on the plateau of Novvroun. In the Champagne district there was an encounter with mines, and in the Argonne there were rifle and cannon exchanges, but no important infantry engagements.

"Between the River Meuse and the River Moselle the night brought considerable activity. Between Feyen-Haye and the forest of Le Pretre French troops by the use of hand-grenades were successful in retaking about 150 yards of the trenches lost by us July 4. At Croix-des-Carmes the enemy delivered an attack yesterday evening along a front of 350 yards. This action followed a bombardment by aeroplanes, which threw down torpedoes, and the hurling of burning liquids. After having been successful in gaining a footing in our first line of defenses the Germans were driven out of these positions by an immediate counter attack. They were able to maintain themselves only in some few of our most advanced trenches.

"In the region of Han-De-Sapt, in the Vosges, at Fontenelle, we gained a notable success. After having driven the enemy from that portion of our old positions, which they captured from us on the 23d of June, we took possession of all the defensive positions of the Germans reaching from the hill to the southeast of Fontenelle as far as the road running from Launols to Moyon-Moutier. This total gain represents an advance of 700 yards along a front of 600 yards. We took the following prisoners: Nineteen officers, including one battalion commander; two doctors and 747 men, none of whom was wounded and belonging to seven different battalions.

"Our ambulances picked up one officer and thirty-two wounded German soldiers. We captured also one cannon of 37-millimetres calibre, two machine guns, several bomb-throwers and ammunition in great quantity.

"Since the break of day the enemy has been cannonading violently the positions lost by them."

**20 ALLIED AEROPLANES RAID BRUGES; DAMAGE THE RAILROAD SHEDS.**

LONDON, July 9.—A great aerial squadron, numbering twenty allied aeroplanes, raided Bruges yesterday and caused great destruction to the railroad sheds, according to a message from the Daily Mail's correspondent at Rotterdam.

CORNISH, N. H., July 9.—An invitation to visit President Wilson at Harbord House was given to-day to Gov. Spaulding, the President departing for the first time from his rule against receiving official callers on his vacation.

Landslide Shuts Hoosac Tunnel.

BOSTON, July 9.—A complete blockage of the Hoosac Tunnel, the main artery of the Boston and Maine Railroad between New England and the West, was caused last night by a washout and landslide at the west portal. The washout first undermined the tracks at the North Adams end and then came the landslide, which completely covered both east and west bound tracks.

Berlin Asserts That Destruction of Cathedral Robbed Enemy of "Observation Point."

HILL LOST TO FRENCH.

Attacks North of the Souchez Sugar Refinery Are Reported Checked.

BERLIN (via wireless to Sayville, L. I.), July 9.—Arras is still burning, the result of the bombardment by German artillery, according to despatches from headquarters to-day.

Practically all the enemy's supply stations in the city have been destroyed. Official despatches to-day said that the destruction of the Cathedral by fire "robbed the enemy of a valuable observation post."

Following is the official report from the Berlin War Office:

"A French attack north of the sugar refinery at Souchez was repulsed. Small bodies of men who penetrated into our positions were killed.

"Up to the present we have not succeeded in clearing the enemy from the trench section which we lost the day before yesterday west of Souchez.

"The report circulated by the French Army Administration regarding the capture of German cannon is incorrect.

"East of Ailly unsuccessful isolated attacks took place. We captured by storm several French lines of trenches extending over a width of 350 yards and joining our newly captured positions in the forest of Le Pretre to the east. On this occasion we captured 250 prisoners and four machine guns. Otherwise only unimportant patrol engagements took place between Ailly and the Moselle.

"After artillery preparation the enemy attacked Hill 631, near Banded-Sapt, which we captured on June 22 by storm. We were forced to evacuate the destroyed trenches on top of the hill."

**500,000 NEVER SAW SALOON.**

One Result of Prohibition in Kansas, Says Ex-Gov. Hodges.

ATLANTIC CITY, N. J., July 9.—"Half a million young men and women in Kansas never saw a place where liquor is legally sold and hundreds of thousands of them never saw a 'drunk' declared ex-Gov. George H. Hodges of Kansas, addressing the Anti-Saloon League of America Convention here to-day.

Hodges challenged the statements that Kansas was overburdened with taxes and heavily in debt as the result of prohibition laws. He cited statistics to show that the State is far more prosperous than many of its neighbors who have no laws against the saloon.

Resolutions adopted by the National Board of Directors of the Anti-Saloon League declaring that the eradication of the liquor traffic is a national issue and that the fight to eliminate intoxicants must be pushed with greater vigor than ever.

The resolutions conclude by appealing to Congress to refer the question of national prohibition to the people by adopting a joint resolution submitting a constitutional amendment to the Legislature of the States. The league unanimously adopted the resolutions.

## WAR NEWS IN BRIEF.

Ambassador Gerard in Berlin has received the German reply to the American note on the Lusitania.

Clashes have occurred along the western battle line from the River Aisne to the Vosges. In the latter region the French claim a notable success. The German statement admits that hilltop trenches here were destroyed by French artillery fire and had to be vacated.

The French report having recaptured a part of the trenches recently taken by the Germans between Fey-en-Haye and Le Pretre Forest, but concede the German claim to an advance in the same neighborhood.

German military activities, while lessening in the Galician and South-east Poland war fields, apparently are in full swing again along the front to the west and northwest of Warsaw. The latest official statement from Petrograd indicates this in recording attacks on the Russian positions at several points.

Heavy losses were inflicted upon the Germans in an assault near Jednorozetz in the Przasnysz district, the Russians report, but near Bolimow, almost directly west of Warsaw, an attack in which gains were employed resulted in the storming of first line trenches. In some of these the Germans retained a foothold. The fighting there was reported as continuing.

Petrograd declares that the blow dealt the Austrians south of Lublin is being followed up, the Teutonic forces there being in retreat with the Russians in pursuit.

From Pretoria in South Africa comes news that Gen. Botha at the head of the British forces has completed the conquest of German Southwest Africa, accepting the surrender of all the German military forces there.

## LLOYD GEORGE OR KITCHENER MAY QUIT CABINET

Northcliffe Papers Fighting Haldane and Trying to Air Munitions Scandal.

LONDON, July 9.—The official announcement made by David Lloyd George, the Minister of Munitions, on July 7 regarding Viscount Haldane, ex-Lord Chancellor and Secretary of War, and the question of the supply of war munitions, has started a political sensation in the United Kingdom which is being made the most of by the Northcliffe press to prevent what is declared to be intrigue to get Lord Haldane back into the Cabinet.

Premier Asquith's tribute to Viscount Haldane, read at a meeting of the National Liberal Club on July 5, was regarded as paving the way for an attempt to this kind. Sir Henry Dalziel, Liberal Member for Kirkcaldy Burghs, has given notice that he will ask Premier Asquith in the House of Commons on Monday whether Lord Haldane's disclosures of the proceedings of a confidential committee of the Cabinet were made with the Premier's authority. Mr. Asquith will be asked to grant one day for a full discussion of the causes responsible for the deficiency of munitions.

The Northcliffe press publishes an appeal which it urges its readers to sign and send to the Government, protesting against the readmission of Viscount Haldane to the Cabinet.

The Daily Mail this morning started a campaign for a "People's Committee," composed of business men of high reputation who never have been connected with Parliament or party journalism, with powers to call for evidence and report to Parliament as to "what servants of the state, by whose negligence or incompetence the fate of the empire has been endangered, are still holding office under the Government."

The Daily Chronicle says: "In some quarters it is rumored that if Major-General Stanley H. von Donop, Master General of Ordnance, does not resign David Lloyd George will, and that if Major-General Donop does Field Marshal Lord Kitchener also will go."

**KITCHENER MAKES PLEA FOR GREATER ARMIES; HUNDREDS TAKE SHILLING.**

LONDON, July 9.—Great crowds assembled in and around the Guildhall this afternoon to hear Field Marshal Earl Kitchener inaugurate a special recruiting campaign. The City of London territorial regiments lined the thoroughfares by which the Field Marshal journeyed.

"We require more men and still more men," said Earl Kitchener, "but the situation in this respect is immeasurably better now than it was ten months ago. The military position to-day, however, is as serious as it was then."

The foregoing was the keynote of the War Secretary's speech to influence recruiting.

Kitchener interposed in his address a tribute to "the gallant work of the Canadians in Flanders" that started an outburst of cheers.

While the war lord was speaking hundreds of recruiting sergeants worked through the crowds outside the hall and in a few minutes had secured hundreds of enlistments. Inside the hall were Ambassador Page and many other diplomats.

Liner Gets Passengers and Cargo of War Munitions Through War Zone.

The White Star liner Adriatic, concerning whose safety with her 333 passengers, including Sir Robert Borden, Premier of Canada, a great deal of apprehension had been felt, and which has been twice reported to have been sunk by German submarines since she left New York, arrived at Liverpool at 3.30 P. M. yesterday.

The Adriatic sailed on Wednesday, June 30, and had in her cargo several thousands of tons of war munitions for the allies.

**SAYS SAYVILLE CHANGE WILL AID GERMANY**

Will Give Her a Better Chance to Present Her Case, Says Herman A. Metz.

Instead of operating against Germany, the taking over of the Sayville wireless station by the United States Government will prove of great benefit to that country, in the opinion of Herman A. Metz, President of the Atlantic Communication Company, which controlled the station.

"With the increased hours of operation much more news can come from Germany and present her side of the case that much better," Mr. Metz said. He also declared that the whole Sayville station was stirred up by newspaper lies. He referred to the charge that secret information had been sent to Germany.

## AUSTRIANS MARCH INTO LUBLIN TRAP AND LOSE 15,000

Archduke Joseph's Men Cut Off From Mackensen's Army in Woods.

11,000 ARE CAPTURED.

Russians on Offensive Again, Report Foe Is in Hasty Retreat.

LONDON, July 9.—A Petrograd despatch to the Daily Mail says:

"The Austrian army under Archduke Joseph Ferdinand, hurriedly pushing forward Monday on the high road from Krasnik to Lublin under the impression that the Russians were in full retreat, lost touch with Field Marshal von Mackensen's army on the right. The Russians, who were nearer than the Archduke supposed, took advantage of his blunder in allowing the flank of his force to be uncovered.

"The aim of this Austrian force was to break through the Russian front, and success seemed almost within its grasp. It did not know that a wood beside the road along which it was advancing was full of Russians. The Archduke was vigorously attacked with disconcerting unexpectancy and lost no fewer than 15,000 men.

"This set-back delayed the advance of the entire Austro-German forces for three days and it soon will be seen whether they will be able to pull themselves together. It looks, however, as though plans for the junction of the armies of the Archduke and Field Marshal von Mackensen at Lublin has gone awry."

The Austrian report says: "In Russian Poland, east of the Vistula, the battle is proceeding. Numerous severe Russian attacks have been bloodily repulsed. Before counterattacks of superior Russian forces, brought up for the protection of Lublin, our troops were withdrawn from both sides of the road to the heights north of Krasnik. West of the Vistula some Russian advanced positions have been stormed.

"On the River Bug and in East Galicia the general situation is unchanged. Hostile attacks on the Lower Zlota Lipa have been repulsed."

The most noteworthy feature of the Austrian official report, in British criticism eyes, is the admission that it is now the Russians who are attacking, and that at one point, at least, the Austrians have given ground before them.

It is the first time since May 4 that the Russians have been in a position to attack.

"The Grand Duke," says a despatch to the Morning Post from Petrograd, "has got the Germans into precisely the same positions strategically as the Austro-German armies occupied last August, but with this difference: The enemy then had all the advantages of a populous country, with rich villages and fine country houses on the line of march, and to-day has to march through a desert ravaged by twelve months of warfare, with roads cut up beyond all semblance to anything."

"Except Lemberg, the Galician towns are piles of ruins and the villages are heaps of ashes. The towns of Przemyśl and Jaroslavl, a couple of hundred miles away from their base must appeal even the German organization."

**\$85,000,000 INCOME TAX.**

Treasury Officials Look for That Total by To-Morrow.

WASHINGTON, July 9.—The personal and corporation income tax is still turning money into the Treasury coffers and officials are hopeful that the total at the close of business July 10, the last day on which payments may be made, will be well over \$85,000,000.

About \$23,000,000 has come in from this source since the close of the fiscal year June 30, bringing the total to \$27,000,000, but officials believe that to-day and to-morrow will show much larger receipts.

**Ill and Friendless, Takes Her Life.**

## ALL THE GERMAN IN SOUTH AFRICA YIELD TO BOTH

Former Boer Leader Accepts the Surrender and British Are Now in Control.

PRETORIA, South Africa, via London, July 9.—Gen. Botha, commander of the forces of the Union of South Africa, has accepted the surrender of all German military forces in German Southwest Africa.

The Germans surrendered unconditionally following the issuance of Gen. Botha's ultimatum, which expired at 5 o'clock Thursday evening. With the exception of the necessary army of occupation the citizen army will be brought home as quickly as possible.

The German forces in Southwest Africa consisted of about 5,000 men at the beginning of the war. Gen. Botha began an offensive against the German colony, embracing 322,450 square miles, last fall with about 20,000 men. His capture of Windhoek, capital of the colony, was announced a few weeks ago.

Most of the country is barren, but the German Government has begun experimenting with the intention of raising cotton on the more fertile portions.

German Southwest Africa extends along the coast from the Orange River to the Capene River, about 300 miles. It lies between Portuguese West Africa and Cape Colony, extending eastward to the British sphere. The area is 322,450 square miles. The population is 73,556, chiefly Hottentots and Bushmen. The European population in 1913 was 14,816, of whom 12,292 were Germans.

**MORE HELD IN IOWA MYSTERY.**

Four Now Implicated in Double Murder of 47 Years Ago.

BEDFORD, Ia., July 9.—Two more arrests were made to-day in the case involving the murder of a rich cattleman and his son forty-seven years ago and the burying of treasure the result of the crime. Henry and John Dainwood, both nearly sixty years old, were taken into custody, but no connection with the affair was not revealed.

The story of the murder of the unknown cattleman and his son back in 1868 came to light yesterday with the arrest of Henry and John Dainwood, a well-to-do cattleman. Scribner was charged with being an accomplice of Huntman, who in addition to being charged with the double murder faces the allegation that he was connected with a notorious counterfeiting gang that operated in Iowa in the years immediately following the war.

The temporary injunction restraining the Shuberts from the theatre, dramatic critic of the Times, from their theatres was set aside to-day by the Appellate Division of the Supreme Court.

Justice Dowling dissented from this view.

Mr. Woolcott said that he would carry the case to the highest court.
